

Erasmus+ Cross-sectoral Contact Seminar

ENHANCING DIGITAL COMPETENCES IN EDUCATION AND TRAINING

Tallinn, Estonia, 17 – 20 September 2017

Host

The Estonian Erasmus+ National Agency is organising a cross-sectoral contact seminar open to all Erasmus+ programme countries. The seminar will be held on September 17-20, 2017 in Tallinn when Estonia is holding the presidency of the EU Council.

Theme

Digital technologies are key drivers of innovation, growth and job creation in the global world. Not everybody however, has the knowledge, skills and attitudes to be able to use digital technologies in a critical, collaborative and creative way. According to studies¹ 30% of all Europeans are digitally illiterate (older people, less educated youth, lower income families, migrants, at risk of social exclusion, etc.). The lack of digital competence of a large part of the EU population has dramatic repercussions on their employability perspective.² In the EU 42% of people with no core computer skills are inactive in the labour market. Digital competence is becoming a must for employability and active citizenship, especially as it is expected that 90% of jobs in the near future will require ICT skills of some level.

Digital competence³ refers to the ability to use digital technologies. It involves the confident and critical use of Information Society Technology (IST) for work, leisure and communication. It is underpinned by basic skills in ICT: the use of computers to retrieve, assess, store, produce, present and exchange information, and to communicate and participate in collaborative networks via the Internet.

One of the main challenges that require actions from educational sector is how to prepare the population to constantly keep updating digital competences in order to adapt in technologically diverse environment. Transnational collaboration and exchange of innovative ideas between European educational institutions through Erasmus+ programme is an opportunity for tackling these issues.

¹A common European Digital Competence Framework for Citizens (2014)

²Digital Competence and Employability (2014)

³Recommendation of the European Parliament and of the Council on key competences for lifelong learning (2006)

Aim

The overall idea of the contact seminar is **to find partners with similar interests** and develop ideas for **the new KA2 strategic partnerships** on the issue of ICT and digital skills. The seminar will also give an opportunity to share experience and discover new approaches in the field with **the special focus on creating cross sectoral and transversal collaborations** between different sectors and organisations.

Target groups

The seminar is open to participants within the fields of **school education, vocational education and training, adult education and higher education**. The contact seminar is mainly targeted at representatives from schools, VET and higher education institutions, second chance schools, adult education centres, teacher training institutions, enterprises, research institutions and other organisations interested in the theme of the seminar and committed to develop Erasmus+ strategic partnership.

We welcome **up to 4 participants from each country** (preferably from 4 different sectors), with a maximum of 70 delegates altogether. National agency colleagues are most welcome as well.

Date and venue

The seminar will start by dinner on the 17th of September and will finish by lunch on the 20th. The seminar will be held at the **Park Inn by Radisson Meriton Conference & Spa Hotel** in the city centre of Tallinn.

Working language

The working language of the contact seminar will be **English**.
